Statesboro, Ga., Friday, March 27, 1903

THE SMALLPOX SCARE

There's a wall throughout the country which is ringing in our ears. For they've heard a thousand stories, and they have a thousand fears. "They have smallpox down the country and you'll better all take care. Let you wake up with the vermin in the morning!"

There's a cry throughout Emanuel and in Bulloch county too. "There is smallpox in the country, and we are mighty scared—too ho!" You had better watch your footsteps, and each fellow that we meet. Let you wake up with the vermin in the morning!"

All business is suspended as the idlers stand about. When they see a fellow coming, oh, they raise a mighty shout: "You had better not go near him—he is looking kinder sick. And may wake up with the smallpox in the morning!"

And they wear such saddened faces, and can scarcely raise a grin. Afraid of those to open, lest a germ should saunter in. "For there is smallpox in the country, and you'll better all take care. Let you wake up with the vermin in the morning!"

Now, its well enough, good people, to be careful about your health. To guard against all danger, as you're also guarding wealth. But don't be inconsistent, and don't get off your "base." Let you wake up with the darn fool in the morning!

—Blade.

Mayor Johnston has had his hands full lately, and the people will appreciate his careful attention to affairs in the present crisis.

Our Col. A. A. Monsch, the general salesman of Paul Heyman, is in the city this week, and he always makes a hit when he comes here and his trade enjoys his company.

A. Rosolio Writes.
Asheville, N. C., March 25, 1903.
Statesboro, Ga.

Dear Sir:

I beg space once in your valuable paper, to heartily endeavor Mayor Johnston's letter of the 12th. Every word he says regarding the smallpox situation I know is true. I have recently talked with parties from other sections, where smallpox has been and they assure me that there is absolutely no danger in taking it, if one has been successfully vaccinated and if you have not been vaccinated, you are obliged to come within eighteen inches of a person who is recovering from the disease, before you can take it, these are facts, and I am sure when the good people of Statesboro and the surrounding country become acquainted with the easy manner in which this malady is curbed and stamped out, they will at once relax their fears, and go about their business with perfect ease and safety.

Health Officer Speaks.

Editor Statesboro News.

I wish to state some facts to the general public, regarding the smallpox situation at this place. The outlook is very bright at this time as we have had no new developed cases since last Saturday, and they were in families some of whose members had already had the disease. We have released from quarantine three families already this week, and expect to release three more Saturday. Every case in town is doing well and all are convalescing nicely. We have had but one case that has been at all serious or that I have been at all apprehensive about, and it was an infant two months old of Mr. Wilson, and is now well.

The rumors circulated through the country that several have died is utterly false, not the shadow of truth about it. There has not been a death in our town since we have had smallpox here, from any cause.

The reports about several parties having lost their arms from vaccination is equally untrue and misleading.

The fear that some of the country people entertain about coming to town is altogether unfounded and unneeded for, as there is absolutely no danger whatever, unless they were to go into a house where the disease is. And all of them are easily recognized as there is a yellow flag at every house that has the disease.

We feel confident that it is well under control and that in another week we will be entirely relieved of any further anxiety, for without new developments we will be ready in ten days to dismiss all patients.

All churches are permitted to resume their Sunday morning services the 20, inst. The school may also resume its exercises on next Monday the 30, inst.

A. L. R. Avant,
Health Officer.

It Saved His Leg.

P. A. Danforth of LaGrange, Ga. suffered for six months with a frightful running sore on his leg; but writes that Bucklen's Arnica Salve wholly cured it in five days. "For ulcers, wounds, piles, it's the best salve in the world. Guaranteed. Only 25c. Sold by, W. H. Ellis Druggist."

Bell Telephone Here.

The poles for the Bell Telephone Co. are being erected in the city limits. The route is from Dover, where it connects with the main lines which are now spreading out and reaching all the big cities. Thus we are hooked on to the outside world. The poles being put up are large cypress poles and will last for a large number of years.

May Locate Factory Here.

Mr. Broughton, the president of The Standard Cresset Mfg., was in the city on Monday.

A plant of this company recently erected at Shearwood is now in operation, and they are working cressets and wood alcohol out of the old lightwood stumps and trees in the flat woods in that section. They have an up-to-date plant, and are doing a good business. Mr. Broughton will erect another plant in the near future, and stated that this may be located in Statesboro.

Since our town is getting quite a reputation as a manufacturing center, it would be a good idea to get this one too.

More Riots.

Disturbances of strikers are not nearly as grave as an individual disorder of the system. Overwork, loss of sleep, nervous tension will be followed by utter collapse, unless a reliable remedy is immediately employed. There's nothing so efficient to cure disorders of the liver or kidneys as Electric Bitters. It's a wonderful tonic, and effective nerve and the greatest all around medicine for run down systems. It dispels rheumatism, rheumatism and neuralgia and expels malaria germs. Only one, and satisfaction guaranteed by W. H. Ellis Druggist.

Artesian Well Started.

Work on the artesian well for the City Ice Co., was started on Wednesday. Messrs. W. D. and H. B. Davis are boring it. The foundations are all set and ready for the machinery, which will arrive in a few days. Statesboro now has three artesian wells.

When you feel blue and that everything goes wrong, take a dose of Chamberlain's Stomach and Liver Tablets. They will cleanse and invigorate your stomach, regulate your bowels, give you a relish for your food and make you feel that in this old world is a good place to live. For sale by W. H. Ellis.

Will Begin Suit.

A big law suit is now pending. Mr. J. E. Hogan will soon enter suit for the recovery of the Inman property at Clito, a tract of about one thousand acres of the best land in Bulloch, lying in and near the station. Mr. Hogan claims that the property was procured from him as collateral and together with other property which was more than sufficient to pay his indebtedness.

He has employed counsel and the suit will soon be entered.

The scratch of a pin may cause the loss of a limb or even death when blood poisoning results from the injury. All danger of this may be avoided, however, by promptly applying Chamberlain's Pain Balm. It is an antiseptic and quick healing liniment for cuts, bruises and burns. For sale by W. H. Ellis.

NOTICE, MILITARY!

Cols. Obeah and Gordon will be in Statesboro next Tuesday the 31, inst for the purpose of mustering in the recently organized military company. All who have joined or wish to join are urged to be on hand at the court house at 12:30 p. m. The better the impression we make on these officers, the better we will fare at the hands of government.

W. M. Oliver, Sec.

I have used Chamberlain's Cough Remedy for a number of years and have no hesitancy in saying that it is the best remedy for coughs, colds and croup I have ever used in my family. I have not words to express my confidence in this remedy.—Mrs. J. A. Moore North Star Mich. For sale by W. H. Ellis.

Come To Church.

Under the providence of God we have not been able to come together to worship for nearly a month. Now that we can come to the house of prayer on next Sunday morning, we hope to see a large congregation, who appreciate this privilege of gathering for the praise of our Master. "I was glad when they said unto me, let us go unto the house of the Lord." J. S. McLenore.

The best pill 'neath the stars and stripes; It cleanses the system and never grieves. Little Early Risers of wordsy reputations—Ask for DeWitt's and take no substitute. A small pill, easy to buy, easy to take and easy to act, but never failing in results. DeWitt's Little Early Risers arouse the secretion and acts as a tonic to the liver, curing permanently. W. H. Ellis.

An Exciting Experience.

A few days ago, Mr. Thomas B. Thorne of Erie, one of the best known farmers of that section of the county, had an experience that he will not soon forget.

He went out early in the morning, for the purpose of hunting some wild turkeys in a swamp near his place, and finally he found one, and in order to get his gun in proper location, he dropped down on one knee, and as he did he felt something move against his leg, and he looked down, and behold, horrors! it was a big rattlesnake. Tom is getting along in years, but nevertheless, he jumped about ten feet, on one foot, to get out of the way. He then recovered his equilibrium and fired at the reptile, and killed him, and the snake had fourteen rattles in his body. The poles being put up are large cypress poles and will last for a large number of years.

The stomach is the man. A weak stomach weakens the food, because it cannot transform the food he eats into nourishment. Health and strength cannot be restored to a sick man or weak woman without first restoring health and strength to the stomach. A weak stomach cannot digest enough food to feed the tissues of the body and the run down limbs and organs of the body. Kodol Dyspepsia Cure cleanses, purifies, sweetens and strengthens the glands and membranes of the stomach, and cures indigestion, dyspepsia and all stomach troubles. W. H. Ellis.

We note that there is a strong pull being made upon Col. C. H. Parker to make the race for representative from Appling county next time. Mr. Parker was a citizen of Statesboro a few years ago and the News believes he would make an able representative. The people of Appling would make no mistake in securing him.

MILLINERY!

I have decided to continue the business of my mother, MRS. A. J. WIMBERLY, and want to thank her friends in her behalf for the patronage they gave her.

I have just received a full line of Ladies' and Children's Headwear, In Latest Style, and will certainly appreciate a continuance of your trade.

Satisfaction Guaranteed
SALLIE WIMBERLY.

I make a specialty of repairing Time Pieces and Jewelry. My motto is: To sell you the best obtainable goods at the Lowest Possible Prices. I feel sure you will not regret the time it will take you to inspect my line before you make a purchase.

When you come to Statesboro Call and see us Whether you want goods or not. We shall be pleased to have you make our store your headquarters while in the city.

J. E. BOWEN,
STATESBORO, GEORGIA.

NOTICE.

The Public Term of school at the Statesboro Institute will open next Monday morning, the 30th inst. Our intention had been to open last Monday, but it was deemed best to postpone in order to be certain that everything was all right.

Come in at the opening, as time lost then will be hard to catch up. J. H. O'Quinn, Pres.

Heinz's sweet mixed pickles at Olliff & Smith's

Raging Floods.

The Mississippi river has been on a boom for several weeks, and in some sections of the valley, whole counties are under water, and steamboats run over submerged plantations. The great river has levees or great dams, on each side of it, and hundreds of miles have been built at a cost of millions of dollars. Some of the richest farm lands in the world are in this valley, and occasionally a great flood destroys an entire crop or prevents the making of one, yet the farmers take the chances on it, and it pays in the long run.

The people of Statesboro are not letting a little small pox keep them back. They are going ahead, building oil mills, and ice factories and boring artesian wells.

Factories are the thing. The oil mill is now a certain fact, and with other things in that line, Statesboro will go forward to still greater things.

AN OIL MILL.

Will Soon Be Erected.

The money for the erection in Statesboro of a thirty thousand dollar cotton seed oil mill has all been subscribed, and the promoters of this important enterprise are going right to work, to be ready for the fall business.

Mr. John W. Olliff is the moving spirit in the enterprise, and the Olliff Investment Co. has subscribed \$10,000, J. W. Olliff and Foster Olliff \$5,000, B. E. Turner \$5,000, and many other citizens have also taken small amounts of stock.

Mr. Olliff says that the company will also build in connection with the oil mill, a large ginney, at which many bales of cotton can be ginned daily. The company will be incorporated at once, and will also be empowered to manufacture fertilizers, as the men interested hope in the course of a year or two to add a large guano plant.

Years ago, cotton seed were only regarded as useful for fertilizers, while now they constitute about one-third of the value of the cotton crop. The seed are used to extract oil from, and in addition, cotton seed meal, and hulls are valuable for feeding purposes, as well as for a fertilizer. It will be a valuable thing for the farmers of Bulloch county, for they will find a home market for their seed right at home. Mr. Olliff proposes to give the subject his attention, and we are satisfied it will be a paying investment for all persons concerned.

Years ago, cotton seed were only regarded as useful for fertilizers, while now they constitute about one-third of the value of the cotton crop. The seed are used to extract oil from, and in addition, cotton seed meal, and hulls are valuable for feeding purposes, as well as for a fertilizer. Mr. Olliff proposes to give the subject his attention, and we are satisfied it will be a paying investment for all persons concerned.

Mrs. Joshua Everett, and son, Mr. J. C. Everett, of Bulloch county, were in the city this week, guests of Mrs. Everett's daughter, Mrs. S. B. Kennedy.—Pine Forest.

After the Pigs.

At a recent session of the city council, an ordinance was passed against the nuisance of hog pens in the corporate limits of the town. After April 1, it will be unlawful to pen a pig unless you give him at least one eighth of an acre to play in. This will do away with all the filthy hog pens in town. While it seems that council has allowed itself to get on the extreme in requiring such a large space for the pigs, yet the health of the city is of more importance than all the summer pigs in town.

Tragedy Averted.

"Just in the nick of time our little boy was saved" writes Mrs. W. Watkins of Pleasant City, Ohio. "Pneumonia had played sad havoc with him and a terrible cough set in besides. Doctors treated him, but he grew worse every day. At length we tried Dr. King's New Discovery for consumption, and our darling was saved. He is now sound and well." Everybody ought to know it's the only sure cure for coughs, colds and all lung disease. Guaranteed by W. H. Ellis Druggist. Price 50c and \$1.00. Trial bottle free.

VETERANS' REUNION

Not In Jail.

Mr. W. H. Fennell of Pembroke was in the city on Saturday and called and requested us to state that the report in circulation to the effect that he was in Reidsville jail was untrue. It is true that he shot at a negro at Daisy, and was arrested and carried before the Judge of the City Court at Hagan, and was fined \$50 which he promptly paid and was released. He says he never saw Reidsville or the jail either. He hopes his friends will correct the report when they hear it.

Other articles at proportionate prices. Parties in the county who make up baskets of Laundry will be allowed 15 per cent for their trouble.

JOHNNIE MINGO,
Proprietor.

Tendency Of The Times.

The tendency of medical science is toward preventing measures. The best thought of the world is being given to the subject. It is easier and better to prevent than to cure. It has been fully demonstrated that pneumonia, one of the most dangerous diseases that medical men have to contend with, can be prevented by the use of Chamberlain's Cough Remedy. Pneumonia always results from a cold or from an attack of influenza (grip), and it has been observed that this remedy counteracts any tendency of these diseases toward pneumonia. This has been fully proven in many thousands of cases in which this remedy has been used during the great prevalence of colds and grip in recent years, and can be relied upon implicit confidence. Pneumonia often results from a slight cold when no danger is apprehended until it is suddenly discovered that there is fever and difficulty in breathing and pains in the chest, then it is announced that the patient has pneumonia. Be on the safe side and take Chamberlain's Cough Remedy as soon as the cold is contracted. It always cures. For sale by, W. H. Ellis.

Mr. I. H. Hilliard, Special Agent of The Germania Life Insurance Co., with headquarters in Savannah, has been in the city for the past few days. He has appointed Messrs. C. T. Hamilton & Bro. as resident agents of the above named Co.

Mr. I. T. Newsome of Zoar, visited our city on Monday.

One farmer sold \$200.00 worth of home raised meat to one of our merchants last week. This is business.

Low Rates.

Full information as to rates and schedule can be obtained from local Seaboard Air Line Ticket Agents, or by addressing Mr. C. B. Walworth, A. G. P. A., Savannah, Ga.

What's In A Name?

Everything is in the name when it comes to Wich Hazel Salve. E. C. DeWitt & Co. of Chicago, discovered, some years ago, how to make a salve from Wich Hazel that is a specific for piles. For blind, bleeding, itching and protruding piles, eczema, cuts, burns, bruises and all skin diseases, DeWitt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitt's the genuine. W. H. Ellis.

Georgia Editors.

Cedartown, Ga. March 20.—The seventeenth annual convention of the Georgia Weekly Press Association will be held in the city of Cedartown, and the association will be entertained in a handsome way. The home of Cedartown will be thrown open, and for two days a continual round of gaieties will hold the boards. A visit to the famous iron mines, a "night run" to the Cherokee furnace, carriage drives, brilliant receptions and other features are being prepared for the entertainment. Cedartown is famous for her enterprise and hospitality.

Mr. W. S. Coleman of the Cedartown Standard, who is president of the association, has arranged a Western trip for the editors and their ladies that is sure to please them all. Leaving Cedartown, the Seaboard will take the party, who will travel in two Pullman cars, to Birmingham, where the Frisco system will land them at Kansas City. Mr. W. T. Saunders, the Atlanta representative of the Frisco will have the party in tow over his line, and will take them to Eureka Springs, Ark., en route to Kansas City, where the editors will be the guests of the railroad company at these famous springs. Leaving Kansas City, the party goes to Denver, where a day will be spent, and Colorado Springs will next be visited for a day. Pike's Peak will be seen by the party in its entirety, and a banquet will be served by one of the noted hotels at one of these points, to the editorial party. Returning the party will swing around the circle to Omaha, and on to Burlington, each of which places will be seen. Reaching St. Louis, the editors will go up to Cedar town for the evening. The party will be met at the depot on Wednesday afternoon, July 15, the party leaves for the West in their sleeping cars, and will return in about two weeks to Atlanta.—Morning News.

Rev. W. Langston of the Methodist church, requests us to say that there will be services at the church Sunday morning. The people are invited.

Col. D. R. Groover visited Athens last week.
